FIP Platinum Marbella, Guerrero and Bautista make the double. Party also for Icardo-Jensen

Not one perfect week, but two. **Fran Guerrero** and **Jairo Bautista** made the double. After winning the **FIP Gold** in **Lyon**, the Spaniards also lifted the trophy in the **FIP Platinum** in **Marbella**, also gaining 250 points in the FIP ranking. In the final at **Club Nueva Alcántara**, **Guerrero/Bautista** overcame **Momo Gonzalez** and **Edu Alonso** 6-4 7-6. A break in the tenth game in the first set and the tiebreak in the second, after Gonzalez and Alonso had served to take the match to the third, were decisive. For the Guerrero/Bautista pair it is the fourth title on the **CUPRA FIP Tour**, in three different categories, after the two Rise titles in **Ceuta** and **Cordoba**. *“We thank all the fans, our families for coming here to support us – said Bautista –. This victory is very important, for everything we have done this week and also in the past week. We stayed focused even in complicated moments, thanks also to a super game from Fran”.* *“We played at a great level – added Guerrero – and this was also thanks to the work of our whole team”.*

WOMEN More clear was the victory of **Tamara Icardo** and **Claudia Jensen** in the women’s final; the number 2 seed beat 6-3 6-1 **Jessica Castelló** and **Alejandra Salazar**, the number 1 seed. If for **Icardo** it’s a special title, coming after a long stop due to injury, **Jensen** returns to win almost seven months after her triumph in the P1 in Acapulco when the Argentinean played in a pair with **Castelló**, now an opponent, just as Icardo had started the season with **Salazar**. *“I’m very happy to have won – said Icardo –. Being here and having won is the most important thing, also because those who have been close to me during this period know what I have been through”.* *“We are very happy to have won this tournament – added Jensen –. I thank and greet my father and brother who were here with me today”.*
